Board Policy

Intradistrict Open Enrollment

BP 5116.1
Students

The Governing Board desires to provide enrollment options that meet the diverse needs and interests of district students and parents/guardians, while also balancing enrollment in order to maximize the efficient use of district facilities. The Superintendent or designee shall establish procedures for the selection and transfer of students among district schools in accordance with law, Board policy and administrative regulation.

(cf. 5117 - Interdistrict Attendance)

The parents/guardians of any student who resides within district boundaries may apply to enroll their child in any district school, regardless of the location of residence within the district. (Education Code 35160.5)

(cf. 5111.1 - District Residency)
(cf. 5111.12 - Residency Based on Parent/Guardian Employment)
(cf. 5111.13 - Residency for Homeless Children)

The Board shall annually review this policy. (Education Code 35160.5, 48980)

Enrollment Priorities

No student currently residing within a school's attendance area shall be displaced by another student transferring from outside the attendance area. (Education Code 35160.5)

(cf. 5116 - School Attendance Boundaries)

The Superintendent or designee shall grant priority to any district student to attend another district school, including a charter school, outside of his/her attendance area as follows:

1. Any student enrolled in a district school that has been identified on the state's Open Enrollment List. (Education Code 48354)

(cf. 5118 - Open Enrollment Act Transfers)

2. Any student enrolled in a district school receiving Title I funds that has been identified for program improvement (PI), corrective action, or restructuring. (20 USC 6316)

(cf. 0420.4 - Charter Schools)

(cf. 0520.2 - Title I Program Improvement Schools)
(cf. 6171 - Title I Programs)

3. Any student enrolled in a district school designated by the California Department of Education as "persistently dangerous." (20 USC 7912; 5 CCR 11992)

(cf. 0450 - Comprehensive Safety Plan)

4. Any student who is a victim of a violent crime while on school grounds. (20 USC 7912)

(cf. 5116 - School Attendance Boundaries)

5. Upon a finding that special circumstances exist that might be harmful or dangerous to the student in the current attendance area. Special circumstances, include, but are not limited to, threats of bodily harm or threats to the emotional stability of the student. Any such student may transfer to a district school that is at capacity and otherwise closed to transfers.

To grant priority under these circumstances, the Superintendent or designee must have received either: (Education Code 35160.5)

a. A written statement from a representative of an appropriate state or local agency, including but not limited to a law enforcement official or social worker, or a properly licensed or registered professional, including, but not limited to, a psychiatrist, psychologist or marriage and family therapist

b. A court order, including a temporary restraining order and injunction

6. Any sibling of a student already in attendance in that school. "**Already in attendance" is defined as having fully completed registration for the same year after having been selected through the lottery. This priority is dependent on available space with the exception of twins and other multiple birth siblings (see below).**

7. Any student whose parent/guardian is assigned to that school as his/her primary place of employment.

Application and Selection Process

In order to ensure that priorities for enrollment in district schools are implemented in accordance with law, applications for intradistrict open enrollment shall be submitted during the Board identified yearly open enrollment dates.

Twins or other multiple birth sibling will be issued a single lottery entry so that all or none of twin or multiple birth siblings will be accepted. Additional spaces will be added for each twin/multiple accepted by lottery to ensure spaces for the student(s) who would have been accepted absent a twin/multiple acceptance. No other adjustments will be made to the number of spaces for students at each school of choice school as a result of

twin/multiple acceptance.

The Superintendent or designee shall calculate each school's capacity in a nonarbitrary manner using student enrollment and available space. (Education Code 35160.5)

Except for priorities listed above, the Superintendent or designee shall use a random, unbiased selection process to determine who shall be admitted whenever the school receives admission requests that are in excess of the school's capacity. (Education Code 35160.5)

Enrollment decisions shall not be based on a student's academic or athletic performance, except that existing entrance criteria for specialized schools or programs may be used provided that the criteria are uniformly applied to all applicants. Academic performance may be used to determine eligibility for, or placement in, programs for gifted and talented students. (Education Code 35160.5)

(cf. 6172 - Gifted and Talented Student Program)

Transportation

Except as required by 20 USC 6316 for transfers out of Title I PI schools, the district shall not be obligated to provide transportation for students who attend school outside their attendance area.

7. **Ratification of District's Approval of Assignments Through Various Education Codes**

Current statutes and regulations recognize that there may be situations of a temporary mature in which a teacher with the appropriate credential is not available to the School District or the assignment is part-time and not conducive for recruitment. Senate Bill 435 has made it possible to assign staff with their permission to these areas in several ways:

Education Code 44256(b) states that the holder of a self-contained type credential may be assigned, with his or her consent, teach any subject in departmentalized classes, below grade 9, in which the teacher has 12 semester hours of coursework in the subject area.
Education Code 44263 states that the holder may be assigned, with his or her consent, to teach any single subject class in which the teacher has 18 semester hours of coursework or a self contained classroom with 60 semester hours distributed among four of the following subjects: language studies, literature, mathematics, science, social science, history, humanities, the arts, physical education, and human development.
Education Code Section 44831 allows an individual who holds a master's degree in communication disorders; meets the basic skills requirement; has a valid license from the Speech-Language Pathology and Audiology Board; and has the criminal record summary
Education Code 44258.7(c) & (d) (COA) allows a full-time teacher with special skills and preparation outside of his or her credential authorization to be assigned to teach in the area.

The board is asked to approve the individuals listed below as per the Education Code noted.
