## INDEPENDENT AUDITORS' REPORT

Board of Education  
Ventura Unified School District  
Ventura, California

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Ventura Unified School District (the District) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to in the aforementioned table of contents present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information schedules as listed in the aforementioned table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The schedule of expenditures of federal awards, as required by *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Costs Principles, and Audit Requirements for Federal Awards*, the other supplementary schedules and the combining major and non-major fund financial statements as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Average Daily Attendance (ADA), Schedule of Instructional Time, Schedule of Expenditures of Federal Awards, Reconciliation of the Annual Financial and Budget Report with the Audited Financial Statements, the Notes to the Supplementary Information and the combining non-major fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures

Board of Education  
Ventura Unified School District

applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated, in all material respects, in relation to the financial statements as a whole.

The History and Organization, Schedule of Financial Trends and Analysis and Schedule of Charter Schools have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated December 12, 2019 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**For the Fiscal Year Ended June 30, 2019**

The Management Discussion and Analysis section of Ventura Unified School District's financial report presents an overall review of the District's financial performance during the fiscal year that ended on June 30, 2019. Readers should also review the notes to the basic financial statements and the fund financial statements to enhance their understanding of the District's financial performance.

**FINANCIAL HIGHLIGHTS**

Total net position was \$739,388. As a result of increasing retirement contribution rates, the District's net position decreased by \$1.5 million or 66.90%.

- Total governmental fund revenues were \$224.9 million. General Fund revenue accounted for \$202.7 million or 90.13% of total revenues.
- The District had \$221.4 million in government-wide expenses; \$47.19 million of these expenses were offset by program specific charges for services and grants and/or contributions.
- Outlays for capital improvements were \$2.7 million, primarily for facility modernization. Facility modernization projects include installation of new flooring, lighting, roofing, shade structures, and asphalt. Additional projects include new plumbing at a high school site and renovated gathering space at an elementary site. Governmental funds report capital outlay as expenditures. However, in the statement of activities the cost of these assets is allocated over their useful lives as depreciation expense.
- Among major funds, the General Fund had \$202.8 million in revenues and \$196.2 million in expenditures. The District has restricted, as required by law, the \$3.7 million unspent program grant funds. As of 2018-19, the state has paid down all of the backlogged mandate claims and outstanding Proposition 98 maintenance factor obligations, as a result, annual increases in state revenues are expected to be based only on State formula-driven cost of living adjustments (COLA).
- School districts in California have completed their implementation of the Local Control Funding Formula (LCFF) as of the 2018-19 school year, a comprehensive reform of how funding is allocated for K-12 schools. The LCFF was adopted by the state in 2013 to replace the Revenue Limit funding formula and the majority of state categorical programs, a structure that had been in place for 40 years. The LCFF model requires local determination of priorities for the expenditure of funds. Districts develop a Local Control Accountability Plan (LCAP) to explain programs and priorities to the community. Input from the community is required as part of the development of the plan, and it is intended to assist in promoting transparency for the districts.

# VENTURA UNIFIED SCHOOL DISTRICT

## MANAGEMENT'S DISCUSSION AND ANALYSIS For the Fiscal Year Ended June 30, 2019

- The LCFF consists of base, supplemental, and concentration funding. Base funding provides consistent per student funding rates for all students state-wide using grade level groupings. Additional funding is provided for students identified as higher need: low socio-economic, English learners, homeless, and foster youth. Supplemental funding provides an additional 20% of the base funds for the unduplicated count of students who are identified in these higher need categories. Concentration funding is provided to districts exceeding 55% of their population identified in the unduplicated pupil count. Concentration grant funding provides an additional 50% of the base funds for the percentage of students that exceed 55%. For the 2018-19 school year, Ventura Unified's unduplicated count of students was 56.57%, representing a decline of 0.40%.
- In the November 2016 election, the District was successful in extending a parcel tax that was first initiated in the 2013-14 school year. The community approved continuing the \$59 per parcel per year tax through the 2020-21 school-year. Annual parcel tax receipts generate \$2.1 million for the District.

### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts, management's discussion and analysis (this section), the basic financial statements, and the supplementary information, comprised of required and other supplemental information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *District-wide financial statements* that provide both *short-term and long-term* information about the District's overall financial status.
- The remaining statements are *fund financial statements* that focus on individual parts of the District, reporting the District's operations in more detail.

The financial statements also include *notes* that explain some of the statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the financial statements with comparison of the District's budget for the year.

### District-wide Statements

The District-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes *all* of the District's assets, deferred outflows of resources, liabilities, and deferred-inflows of resources. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two District-wide statements report the District's *net position* and how they have changed. Net position—the difference between the District's assets plus deferred outflow of resources less liabilities and deferred inflows of resources—is one way to measure the District's financial health or *position*.

# VENTURA UNIFIED SCHOOL DISTRICT

## MANAGEMENT'S DISCUSSION AND ANALYSIS For the Fiscal Year Ended June 30, 2019

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District you need to consider additional non-financial factors such as changes in the District property tax base and the condition of school buildings and other facilities.

In the District-wide financial statements the District's activities include:

- *Governmental activities*—Most of the District's basic services are included here, such as regular and special education, transportation, and administration. Property taxes and LCFF finance most of these activities. Other funds in the District are also included here and are described in the notes to the financial statements.

### Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant *funds*—not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (such as repaying its long-term debts) or to show that it is properly using certain revenues (such as federal grants).

The District has two kinds of funds:

- *Governmental funds*—Most of the District's basic services are included in governmental funds, which generally focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the District-wide statements, we provide additional information that explains the relationship (or differences) between them.
- *Fiduciary funds*—The District is the trustee, or *fiduciary*, for assets that belong to others, such as the scholarship fund and the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the District-wide financial statements because the District cannot use these assets to finance its operations.

**MANAGEMENT’S DISCUSSION AND ANALYSIS**  
**For the Fiscal Year Ended June 30, 2019**

**FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE**

**Net position.** The District’s combined net position from governmental activities was \$739,388. The \$1.5 million decrease in net position was primarily due to increasing retirement contribution rates. Table 1 provides a summary of the District’s combined net position for 2019.

Total combined assets were \$227.1 million, capital assets were 75.1% (\$170.5 million) of total assets and non-capital assets were 24.9% (\$56.6 million) of total assets. Total liabilities were \$268.7 million; 4.35% (\$11.7 million) current and 95.65% (\$257.0 million) long term liabilities. Of the District’s *Governmental Activities* net position, \$120.9 million were invested in capital assets net of related debt, \$26.4 million were legally restricted, and negative <\$146.6> million were unrestricted.

**Table 1 (In Millions)**

<b>Summary of Statement of Net Position</b>	2018	2019	Total Change

Significant changes include:

- The increases in non-capital assets is driven by expenditures related to the District’s technology plan which includes the movement towards one-to-one devices for students. Various funding sources for this initiative include restricted funds such as the community-funded Parcel tax and restricted grant funded programs.

**VENTURA UNIFIED SCHOOL DISTRICT**

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
For the Fiscal Year Ended June 30, 2019**

- The decrease in current liabilities is primarily due to a reduction of accounts payable liabilities at year-end while long-term liabilities are related to changes in debt including post-employment healthcare benefits and general obligation bonds.
- Changes to deferred inflows and outflows of resources relate to defined benefit pension plans, including CalSTRS and CalPERS. Note 14 provides more detail.

**Activities.** Total cost of all governmental activity programs and services was \$221.4 million. Instruction and pupil services made up 76% of total program cost, plant services were 9%, and general administration was 5%. Table 2 provides a summary of the District's governmental activities.

With the implementation of the LCFF, the funding received from Proposition 30, and an improved California economy, funding received from the state for education increased for the fifth consecutive year. The parcel tax, \$2.1 million, that was collected for the sixth year in 2018-19, helped to maintain class sizes, purchase technology, and support the arts and music education.

**VENTURA UNIFIED SCHOOL DISTRICT**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**For the Fiscal Year Ended June 30, 2019**

Significant changes include:

Revenues:

- Local Control Funding Formula (LCFF) increased \$5.3 million, or 4.8% primarily due to \$1.09 million in prior-year ADA revenue due to the District based on revised attendance information, prior-year property taxes that were collected, and a Cost of Living Adjustment included in the state budget. The District's focus on capturing demographics to more accurately reflect the unduplicated student count, partially offset by declining student enrollment, was successful in generating an additional \$4.6 million in Supplemental and Concentration funds through LCFF which is expended through the LCAP. LCFF implementation is at 100% of target in the 2018-19 year.
- Federal revenues in the general fund increased \$0.9 million or 12% due mainly to increased revenues in grant programs including SSAE and Title I.
- State revenues increased primarily as a result of increases to STRS on Behalf contributions for \$7.5 million.

Expenses:

- The District funded a 2% increase in salaries for all employees which went into effect retro to the beginning of the year. In addition, the District maintained its contribution to the cost of the employee health and welfare benefit package at \$16,302 per full time employee and in 2018-19 incurred a \$3.0 million increase in retirement contribution expenditures as a result of the increasing rates in both California State Teachers Retirement System (\$2.37 million) and California Public Employee Retirement System (\$0.63 million).
- STRS on Behalf contributions increased by \$7.5 million which offset the increase in revenues.

**VENTURA UNIFIED SCHOOL DISTRICT**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**For the Fiscal Year Ended June 30, 2019**

**Governmental Activities**

The District's governmental funds revenue totaled \$225.0 million. Local control funding formula (funded by property taxes and state funds) generated 68.8% of the revenues, 20.5% was from federal and state grants and contributions, 9.70% from local sources and charges for services, and 1.0% from the parcel tax. General revenues, local control funding formula and the related property taxes were received to provide for the District's basic services.

**Figure 1**

**VENTURA UNIFIED SCHOOL DISTRICT**

**MANAGEMENT’S DISCUSSION AND ANALYSIS  
For the Fiscal Year Ended June 30, 2019**

The cost of all of the District’s governmental funds: instruction, guidance, counseling, evaluation, school leadership, student transportation, administration and, maintenance and operations was \$219.3 million. Instruction and instructional related services (including other outgo) was \$151.7 million (69.2%), pupil, ancillary and community services were \$25.7 million (11.7%), general administration \$11.9 million (5.4%), plant services \$22.8 million (10.4%), debt service \$5.4 million (2.5%), and other expenditures were \$1.8 million (0.8%).

Users of the District programs paid \$3.7 million of the cost. The federal and state governments subsidized approximately \$43.5 million in certain program costs with grants and contributions. Most of the District’s expenses (\$169.1 million) were paid for by District taxpayers and the taxpayers of our state.

**For the Fiscal Year Ended June 30, 2019**

**FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS**

**General Fund Budgetary Highlights**

Over the course of the year, the District revises its annual operating budget several times. The District is required to adopt its budget by July 1<sup>st</sup> each year, which is prior to final funding information from the state. After the state budget is adopted the District is required to present the impacts of the state budget, if significant, to the District budget, within 45 days of the Governor's signature. The District is also required by law to make two formal presentations each year on its financial condition. Budget revisions are made after the presentations to reflect current information. Budget revisions are also made throughout the year as information regarding funding and expenditures becomes available.

**Actual revenues** were \$10.37 million more than the final budget amount. Local control funding formula was \$1.24 million more than budgeted due to ADA funding adjustments arriving in 2018-19 rather than the anticipated 2019-20. Federal revenues were \$0.16 million more than budgeted as program budgets were expended slightly higher than estimated. Other state revenues were \$7.89 million more than budgeted primarily due to required contributions for STRS/PERS on behalf contributions. Local revenues were \$1.09 million more than budgeted due to increased interest revenues above estimates as well as some additional local fundraising.

**Actual expenditures** were \$7.07 million more than the final budgeted amount. \$8.87 million in salaries and benefits primarily related to the \$13.75 million contribution for STR/PERS on behalf contributions, <\$1.70> million less in supplies and services related to restricted funding carryover and reduced site expenditures, and <\$0.42> million less in capital expenditures.

**Capital Assets**

The District had invested \$2.72 million in capital assets during the 2018-19 school year. Overall, total capital assets decreased from \$175.2 million as of July 1, 2018 to \$170.5 million as of June 30, 2019. The majority of capital outlay expenditures occur in the Building Fund, Capital Facilities Fund (Residential), and General Fund. Additional information on the changes in capital assets can be found at Note 7.

**Debt Administration**

On June 30, 2019 the District had \$49.03 million in general obligation bond long-term debt, a <5.60%> (\$2.91 million) decrease over last year. Additional information on the changes in long-term debt can be found at Note 9. The District's general obligation bonds are currently rated "Aa3" and "A2" on Certificates of Participation.

**VENTURA UNIFIED SCHOOL DISTRICT**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**For the Fiscal Year Ended June 30, 2019**

**Average Daily Attendance**

Average daily attendance reported on the second period attendance report for the regular education K-12 program decreased by 461 to 15,706 while the enrollment count decreased by 460 students, to 16,353, as measured by the California Basic Education System (CBEDS). School sites continue working diligently to reduce absences with twenty of twenty-six schools achieving 96% or greater attendance rates

**Factors bearing on the District's future**

Although the District is financially stable, its financial condition is highly dependent upon the economic condition of the State of California. Continued economic growth in California is uncertain. The California Legislative Analyst's Office (LAO) notes in their 2020-21 fiscal outlook for schools that the lack of additional funding beyond the modest cost of living adjustment (COLA) in future years will only cover higher pension costs for districts. The LAO proposes increasing the COLA for districts or by addressing the inadequate funding for Special Education programs. The LAO notes that the chances of a slowdown or recession are higher than average and encourages the Legislature to use the projected \$2.1 billion in one-time funds to pay down district pension liabilities. With LCFE fully implemented and declining enrollment, the District is dependent on increases in COLA to fund rising pension and health & welfare costs.

The District continues to maintain a cautious approach, focusing on the maintenance and enhancement of programs for the current year and adjusting plans for the future in light of uncertainty.

The District currently maintains the required 3% reserve for economic uncertainties and continues to look for ways to optimize revenues while reviewing expenditures for the best value in educating the children of the District.

**CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT**

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. **RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET  
TO THE STATEMENT OF NET POSITION  
June 30, 2019**

Total fund balances - governmental funds \$ 45,820,513

Amounts reported for governmental funds are different than the statement of net position because:

Capital assets used in governmental activities are not financial resource and, therefore, are not reported as assets in governmental funds. These assets consist of:

Land	\$ 13,454,888	
Depreciable assets, net	<u>157,044,577</u>	170,499,465

Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in governmental funds. Long-term liabilities at year-end consist of:

General obligation bonds and related bond premium	(49,036,748)	
Certificates of participation (COPS)	(805,000)	
Installment loan	(855,441)	
Compensated absences	(1,138,244)	
Other postemployment benefits (OPEB)	(14,900,049)	
Net pension liability	<u>(190,284,996)</u>	(257,020,478)

In governmental funds, deferred outflows and inflows of resources are not reported because they are applicable to future periods. Deferred outflows and inflows of resources at year-end consist of:

Deferred charge on refunding	729,996	
Deferred outflows - OPEB	1,558,257	
Deferred outflows - pensions	55,850,503	
Deferred inflows - pensions	<u>(15,829,826)</u>	42,308,930

Interest expense related to general obligation bonds, COPS and installment loan was incurred but not accrued through June 30, 2019. (869,042)

AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES  
For the Fiscal Year Ended June 30, 2019**

Net change in fund balances - total governmental funds \$ 5,635,126

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets with an initial, individual cost of more than \$5,000 are capitalized and the costs is allocated over their estimated useful lives and reported as depreciation expense. In addition when capital assets are disposed their undepreciated value is written-off.

Capital outlay	\$ 2,716,657	
Depreciation expense	<u>(7,393,685)</u>	(4,677,028)

Repayment of long-term debt is reported as an expenditure in governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

COP principal payments	374,000	
Installment loan	<u>256,872</u>	3,205,872

In governmental funds, pension costs are recognized when the employer contribution is made, but in the statement of activities, pension costs are recognized on the accrual basis. The difference between accrual basis pension costs and actual employer contributions was: (8,775,359)

In governmental funds, postemployment healthcare costs are recognized when the employer payment is made, but in the statement of activities, postemployment healthcare costs are recognized on the accrual basis. The difference between accrual basis postemployment healthcare costs and actual employer payments was: 2,841,179

Some items reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. These activities consist of:

Decrease in accrued interest	54,704	
Decrease in deferred charge on refunding bonds	(54,043)	
Decrease in premium on general obligation bonds	335,245

**NOTES TO THE FINANCIAL STATEMENTS  
For the Fiscal Year Ended June 30, 2019**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The District accounts for its financial transactions in accordance with the policies and procedures of the California Department of Education's *California School Accounting Manual*, updated to conform to the most current financial and reporting requirements promulgated by the California Department of Education. The accounting policies of the District conform to generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB).

The significant accounting policies applicable to the District are described below.

**Basis of Presentation**

The accompanying financial statements have been prepared in conformity with GAAP as prescribed by GASB. The financial statement presentation required by GASB provides a comprehensive, entity-wide perspective of the District's financial activities. The entity-wide perspective enhances the fund-group perspective previously required. Fiduciary activities are excluded from the basic financial statements and are reported separately in the fiduciary fund statements.

The District's basic financial statements consist of government-wide statements, including a Statement of Net Position, a Statement of Activities, and fund financial statements.

**Government-Wide Financial Statements**

The Statement of Net Position and the Statement of Activities displays information about the District as a whole. These statements include the financial activities of the primary government. Fiduciary funds are excluded.

The Statement of Net Position presents the financial condition of the governmental activities of the District at year-end. The Statement of Activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District. Depreciation and interest expense have not been allocated to specific functions.

**VENTURA UNIFIED SCHOOL DISTRICT**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Fiscal Year Ended June 30, 2019**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Fund Financial Statements**

During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The fiduciary funds are reported by type.

The fund financial statement expenditures are presented in a function-oriented format. The following is a brief description of the functions:

***Instruction:*** includes the activities directly dealing with the interaction between teachers and students.

***Instruction-Related Services:*** includes supervision of instruction, instructional library, media and technology, and school site administration.

***Pupil Services:*** includes home to school transportation, food services, and other pupil services.

***Ancillary Services:*** includes activities that are generally designed to provide students with experiences outside the regular school day.

***Community Services:*** includes activities that provide services to community participants other than students.

***Enterprise Activities:*** includes activities where the stated intent is that the costs are financed or recovered primarily through user charges. This function includes activities related to the recording of retiree health benefits and deferred compensation plan expenditures.

***General Administration:*** includes data processing services and all other general administration services.

***Plant Services:*** includes activities of maintaining the physical plant. This also includes facilities acquisition and construction expenditures.

***Other Outgo:*** includes transfers to other agencies.

***Debt Service:*** includes principal and interest payments for long term debt.

Fiduciary fund expenses are presented by natural classification.

**VENTURA UNIFIED SCHOOL DISTRICT**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Fiscal Year Ended June 30, 2019**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Fund Accounting**

To ensure compliance with the California Education Code, the financial resources of the District are divided into separate funds for which separate accounts are maintained for recording cash, other resources and all related liabilities, obligations, and equities.

The Statement of Revenues, Expenditures and Changes in Fund Balance are statements of financial activities of the particular fund related to the current reporting period. Expenditures of the various funds frequently include amounts for land, buildings, equipment, retirement of indebtedness, transfers to other funds, etc. Consequently, these statements do not purport to present the result of operations or the net income or loss for the period as would a statement of income for a profit-type organization. The modified accrual basis of accounting is used for all governmental funds.

**Governmental Funds – Major**

**General Fund:** used to account for all financial resources except those required to be accounted for in another fund.

**Cafeteria Fund (Fund #130):** used to account for revenues received and expenditures made to operate the District's cafeterias.

**Building Fund:** the Building Fund is a consolidation of three sub-funds:

*Building Fund (Fund #210):* used to account for the construction and/or acquisition of major capital facilities. Income is from rental of unused sites.

*Building Fund Series A (Fund #211):* used to account for the proceeds of Certificates of Participation and for acquisition, retro-fitting and operation of real property.

*Bond Building Fund (Fund #213):* used to account for proceeds of general obligation bonds and for construction and repairs of facilities.

**Capital Facilities Fund:** the Capital Facilities Fund is a consolidation of two sub-funds:

*Capital Facilities Fund (Residential) (Fund #250):* used to account for resources received from residential developer impact fees.

*Capital Facilities Fund (Commercial) (Fund #251):* used to account for resources received from commercial developer impact fees.

**VENTURA UNIFIED SCHOOL DISTRICT**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Fiscal Year Ended June 30, 2019**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Governmental Funds – Non-Major**

**Special Revenue Funds:** used to account for the proceeds of specific revenue sources that are restricted or committed to expenditures for specific purposes other than debt service or capital projects.

*Adult Education Fund (Fund #110):* used to account for resources restricted or committed to adult education programs maintained by the District.

*Child Development Fund (Fund #120):* used to account for resources restricted to child development programs.

**Capital Projects Funds:** used to account for the financial resources that are restricted, committed or assigned for the acquisition and/or construction of major governmental general fixed assets.

*County School Facilities Fund (Fund #356):* used to account for the School Facility Program grants award for modernization of high school and elementary sites.

**Debt Service Funds:** used to account for the financial resources that are restricted, committed or assigned and the accumulation of resources for, the payment of general long-term debt principal, interest, and related costs.

*Bond Interest and Redemption Fund (#510):* used to collect taxes and pay for debt service associated with general obligation bonds.

**Fiduciary Funds**

**Private Purpose Trust Fund:** is a consolidation of two sub-funds:

*David Graham and Stella Brittingham Memorial Scholarship Fund (Fund #736):* used to award scholarships to students and/or graduates of the District who have participated in aquatic sports.

*Foundation Fund (Fund #730):* used to account for donations of funds from private individuals and organizations.

**Associated Student Body Fund:** used to account for raising and expending money to promote the general welfare, morale, and educational experiences of the student body organizations. The District operates eight organized student body funds and two unorganized student body funds.

**VENTURA UNIFIED SCHOOL DISTRICT**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Fiscal Year Ended June 30, 2019**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Accounting**

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of measurement made, regardless of the measurement focus applied. Revenues in governmental fund financial statements are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Government-wide financial statements are prepared using the economic resources measurement focus and accrual basis of accounting. Governmental funds use the current financial resources measurement focus and the modified accrual basis of accounting. Private-purpose trust funds use the economic resources measurement focus and the accrual basis of accounting. Agency funds have no measurement focus but utilize the accrual basis of accounting for reporting its assets and liabilities. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue, and in the presentation of expenses versus expenditures.

**Cash and Cash Equivalents**

Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash in the county treasury is recorded at amortized cost, which approximates fair value.

**Receivables**

Receivables are generally recorded when the amount is earned and can be estimated. All material receivables are considered fully collectible. Per Education Code Section 33128.1, a local education agency may recognize for budgetary and financial reporting purposes any amount of state appropriations deferred from the current fiscal year and appropriated from the subsequent fiscal year for payment of current year costs as a receivable in the current year.

**Inventories**

Inventories consists of expendable food and supplies held for consumption. Inventories are stated at the lower of cost or market, on the first in-first out basis. At June 30, 2019, the total supply inventory is \$329,193, food inventory is \$25,289, and inventories maintained by student body organization totaled \$46,638.

**VENTURA UNIFIED SCHOOL DISTRICT**

**NOTES TO THE FINANCIAL STATEMENTS  
For the Fiscal Year Ended June 30, 2019**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Prepaid Expenses/Expenditures**

Payments made to vendors for goods or services that will benefit periods beyond June 30, 2019, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expense is reported in the year in which goods or services are consumed.

**Capital Assets**

Generally, capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the Statement of Net Position, but are not reported in the fund financial statements.

Capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their acquisition value as of the date received. The District maintains a capitalization threshold of \$5,000. The District does not own any infrastructure as defined by GASB. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets except for land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description	Estimated Lives
Buildings and improvements	20-40 years

**Deferred Outflows of Resources**

Deferred outflows of resources represent a consumption of net position or fund balance that applies to a future period(s) and thus, will not be recognized as an outflow of resources (expense/expenditure) until then. These amounts are reported in the government-wide statement of net position.

*Deferred Charge on Refunding:* The deferred charge on refunding resulted from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

**VENTURA UNIFIED SCHOOL DISTRICT**

**NOTES TO THE FINANCIAL STATEMENTS  
For the Fiscal Year Ended June 30, 2019**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

*Deferred Outflows – OPEB:* The deferred outflows of resources related to OPEB resulted from District contributions to employee pension plans subsequent to the measurement date of the actuarial valuations for the plans and the effects of actuarially-determined changes to the OPEB plan. These amounts are deferred and amortized as detailed in Note 13 to the financial statements.

*Deferred Outflows – Pensions:* The deferred outflows of resources related to pensions resulted from District contributions to employee pension plans subsequent to the measurement date of the actuarial valuations for the pension plans and the effects of actuarially-determined changes to the pension plan. These amounts are deferred and amortized as detailed in Note 14 to the financial statements.

**Unearned Revenue**

Cash received for federal and state special projects and programs is recognized as revenue to the extent that qualified expenditures have been incurred. Unearned revenue is recorded to the extent eligibility requirements have not been met.

**Compensated Absences**

Accumulated unpaid employee vacation benefits are recognized as a liability when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Sick leave benefits are accumulated without limit for each employee. The employees do not gain a vested right to accumulated sick leave, therefore, accumulated employee sick leave benefits are not recognized as a liability of the District. The District's policy is to record sick leave as an operating expense in the period taken. However, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires.

**Long-Term Obligations**

The District reports long-term liabilities of governmental funds at face value in the government-wide financial statements. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. General obligation bonds are reported net of the applicable bond premium.

In the fund financial statements, governmental fund types recognize bond premiums, as well as bond issuance costs, during the current period. The face amount of debt issued and premiums received on debt issuances are reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Postemployment Benefits Other Than Pensions (OPEB).**

For purposes of measuring the District's OPEB liability related to the Medicare Premium Payment (MPP) Program, deferred outflows of resources related to OPEB and OPEB expense, information about the fiduciary net position of the MPP Program and additions to/deductions from the MPP Program fiduciary net position have been determined on the same basis as they are reported by the MPP Program. For this purpose, the MPP Program recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

**Net Pension Liability**

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the California State Teachers' Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) plan for schools (Plans) and additions to/deductions from the Plan' fiduciary net position have been determined on the same basis as they are reported by CalSTRS and CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Member contributions are recognized in the period in which they are earned. Investments are reported at fair value.

**Deferred Inflows of Resources**

Deferred inflows of resources represent an acquisition of net position by the District that is applicable to a future reporting period.

*Deferred Inflows – Pensions:* The deferred inflows of resources related to pensions resulted from the effects of actuarially-determined changes to the pension plan. These amounts are deferred and amortized as detailed in Note 14 to the financial statements.

**Net Position**

Net position represents the difference between assets plus deferred outflows of resources less liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvements of those assets. Net position is reported as restricted when there are limitations imposed on use through external restrictions imposed by donors, grantors, laws or regulations of other governments or by enabling legislation adopted by the District. All other net position is reported as unrestricted.

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Fund Balance Classification**

The governmental fund financial statements present fund balance classifications that comprise a hierarchy based on the extent to which the District is bound to honor constraints on the specific purposes for which amounts can be spent. The classifications used in the governmental fund financial statements are as follows:

***Nonspendable:*** Amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact.

***Restricted:*** Amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

***Committed:*** Amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the District Board of Education. These amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same formal action (vote or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

***Assigned:*** Amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. The Board of Education, through a formal action has given authority to the Deputy Superintendent of Business Services to assign amounts for a specific purpose that is neither restricted nor committed.

***Unassigned:*** Amounts that are available for any purpose. Positive amounts are reported only in the General Fund.

**Spending Order Policy**

The District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted net position or fund balance is available.

When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District's policy considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board of Education has provided otherwise in its commitment or assignment functions.

**VENTURA UNIFIED SCHOOL DISTRICT**

**NOTES TO THE FINANCIAL STATEMENTS  
For the Fiscal Year Ended June 30, 2019**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Minimum Fund Balance Policy**

The District has adopted a minimum fund balance policy in order to protect against revenue shortfalls and unexpected one-time expenditures. The policy requires a reserve for economic uncertainties consisting of unassigned amounts which represent the minimum recommended reserve consistent with the criteria and standards for fiscal solvency adopted by the State Board of Education. The minimum recommended reserve for a district this size is 3% of budgeted General Fund expenditures and other financing uses.

**State Apportionments**

Certain current year apportionments from the state are based upon various financial and statistical information of the previous year. Second period to annual corrections for Local Control Funding Formula and other state apportionments (either positive or negative) are accrued at the end of the fiscal year.

**Property Taxes**

Secured property taxes attach as an enforceable lien on property as of January 1<sup>st</sup>. Taxes are payable in two installments on November 1<sup>st</sup> and February 1<sup>st</sup>. Unsecured property taxes are payable in one installment on or before August 31<sup>st</sup>.

Real and personal property tax revenues are reported in the same manner in which the county auditor records and reports actual property tax receipts to the California Department of Education. This is generally on a cash basis. A receivable has not been recognized in the General Fund for property taxes due to the fact that any receivable is offset by a payable to the state for Local Control Funding Formula purposes. Property taxes for debt service purposes cannot be estimated and have therefore not been accrued in the government-wide financial statements.

**On-Behalf Payments**

GAAP requires that direct on-behalf payments for fringe benefits and salaries made by one entity to a third party recipient for the employees of another, legally separate entity be recognized as revenue and expenditures by the employer government. The State of California makes direct on-behalf payments for retirement benefits to the State Teachers' Retirement System on behalf of all school districts in California. During the current fiscal year, the State of California made additional one-time contributions to the State Teachers' Retirement System (STRS) and to the California Public Employees' Retirement System (PERS). On-behalf payments of \$11,713,676 made to STRS and \$2,039,343 made to PERS have been recorded in the fund financial statements.

**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Fiscal Year Ended June 30, 2019**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Contributed Services**

Generally accepted accounting principles require that contributions of donated services that create or enhance non-financial assets or that require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation, are to be recorded at fair value in the period received. Although the District receives numerous hours of volunteer time, it is not deemed necessary to record these hours on the books of the District based on the above guidelines. In addition, the District receives donations of immaterial equipment and supplies which are not recorded upon receipt.

**Estimates**

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**Reporting Entity**

The District is the level of government primarily accountable for activities related to public education. The governing authority consists of elected officials who, together, constitute the Board of Education.

The District considered its financial and operational relationships with potential component units under the reporting entity definition of GASB. The basic, but not the only, criterion for including another organization in the District's reporting entity for financial reports is the ability of the District's elected officials to exercise oversight responsibility over such agencies. Oversight responsibility implies that one entity is dependent on another and a financial benefit or burden relationship is present and that the dependent unit should be reported as part of the other.

Oversight responsibility is derived from the District's power and includes, but is not limited to: financial interdependency; selection of governing authority; designation of management; ability to significantly influence operations; and accountability for fiscal matters.

Due to the nature and significance of their relationship with the District, including ongoing financial support of the District or its other component units, certain organizations warrant inclusion as part of the financial reporting entity. A legally separate, tax-exempt organization should be reported as a component unit of the District if all of the following criteria are met:

- The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the District, its component units, or its constituents.

**VENTURA UNIFIED SCHOOL DISTRICT**

**NOTES TO THE FINANCIAL STATEMENTS  
For the Fiscal Year Ended June 30, 2019**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

- The District, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization.
- The economic resources received or held by an individual organization that the District, or its component units, is entitled to, or has the ability to otherwise access, are significant to the District.

Based upon the application of the criteria listed above, the following potential component unit has been included in the District's reporting entity:

**The Ventura County Schools Public Financing Corporation:** The financial activity has been blended in the District's Building Fund Series A. Individually prepared financial statements are not prepared for the Corporation.

The following potential component units have been excluded from the District's reporting entity:

**Ventura Education Partnership (VEP):** VEP is a separate not-for-profit corporation. VEP is not included as a component unit because the third criterion was not met; the economic resources received and held by VEP are not significant to the District. Separate financial statements for VEP may be obtained through the District.

**Various PTA, PTO and Booster Clubs:** Each of these types of organizations at each of the school sites within the District were evaluated using the three criteria listed above. Each entity has been excluded as a component unit because the third criterion was not met in all cases; the economic resources received and held by the PTA, PTO and the Booster Club individually are not significant to the District.

**NOTE 2: BUDGETS**

By state law, the District's Governing Board must approve a budget no later than July 1, using the Single Adoption Budget process. A public hearing must be conducted to receive comments prior to adoption. The District's Governing Board satisfied these requirements. Budgets for all governmental funds were adopted on a basis consistent with GAAP.

These budgets are revised by the District's Governing Board during the year to give consideration to unanticipated income and expenditures. The original and final revised budget for the General Fund is presented in a budgetary comparison schedule in the required supplementary information section.

Formal budgetary integration was employed as a management control device during the year for all budgeted funds. Expenditures cannot legally exceed appropriations by major object account.

**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Fiscal Year Ended June 30, 2019**

**NOTE 3: DEPOSITS AND INVESTMENTS**

**Deposits**

**Custodial Credit Risk**

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits, including those of fiduciary funds, may not be returned to it. The District has established a policy for custodial risk that follows requirements as set forth in Education Code 41002.5. As of June 30, 2019, \$1,536,309 of the District's bank balance of \$2,562,945 was exposed to credit risk as uninsured and collateral held by pledging bank's trust department not in the District's name.

**Cash in County**

In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the Ventura County Treasury as part of the common investment pool. The District is considered an involuntary participant in the investment pool. These pooled funds are recorded at amortized cost which approximates fair value. Fair value of the pooled investments at June 30, 2019 is measured at 100.57% of amortized costs. The District's deposits in the fund are considered to be highly liquid.

The county is authorized to deposit cash and invest excess funds by California Government Code Sections 53534, 53601, 53635 and 53648. The county is restricted to invest in time deposits, U.S. government securities, state registered warrants, notes or bonds, State Treasurer's investment pool, bankers' acceptances, commercial paper, negotiable certificates of deposit, and repurchase or reverse repurchase agreements. The funds maintained by the county are either secured by federal depository insurance or are collateralized. The county investment pool is not required to be rated. Interest earned is deposited quarterly into participating funds. Any investment losses are proportionately shared by all funds in the pool.

The county investment pool is not registered as an investment company with the Securities and Exchange Commission (SEC) nor is it an SEC Rule 2a7-like pool. California Government Code statutes and the County Board of Supervisors set forth the various policies that the County Treasurer follows. The method used to determine the value of the participant's equity withdrawn is based on the book value, which is amortized cost, of the participant's percentage participation on the date of such withdrawals.

The pools sponsor's annual financial report may be obtained from the Ventura County Board of Supervisors, County Government Center, 800 South Victoria Avenue, Ventura, CA 93009.

**NOTE 8: TAX REVENUE ANTICIPATION NOTES**

The District issued \$19,785,000 of Tax Revenue Anticipation Notes dated July 12, 2018 through the California School Boards Association Finance Corporation (2018-19, Series B). The notes matured on June 28, 2019 and carried a 3.0% interest rate. The notes were sold by the District to supplement its cash flow.

Repayment requirements were that principal of \$9,892,500 be set aside on January 31, 2019 and that \$9,892,500 plus \$570,468 of interest be set aside with the U.S. Bank National Association (the Trustee) on April 30, 2019.

The payments were transferred to and set aside in a separate fund of the Trustee in a timely manner. The monies were required to remain on deposit until the maturity date of the note, at which time they were applied to pay the principal and interest on the notes.

General obligation bond liabilities are liquidated by the tax assessments recorded in the Bond Interest and Redemption Fund. Net pension liability and compensated absences are liquidated by the fund with the related salary expenditure. Certificates of participation are liquidated by adult education fees. The installment loan and net OPEB liability are liquidated by the General Fund.

**NOTE 10: GENERAL OBLIGATION BONDS**

In 1997, the voters approved the issuance of bonds, not to exceed \$81 million, for the purpose of raising money to finance the acquisition, construction and modernization of school facilities and paying related costs. Between 1997 and 2005, the District issued bonds Series A through Series I, totaling \$81 million.

Between 2004 and 2014 Series A through Series I were re-financed and proceeds associated with the refunding were deposited into escrow accounts and as such the applicable bond series are considered in-substance defeased. The defeased debt has been fully paid by the escrow agent.

During July 2015 the outstanding 2005 General Obligation Refunding Bonds were refunded. The proceeds associated with the refunding were deposited in an escrow account and as such the applicable refunded bonds are considered in-substance defeased. The defeased debt has been fully paid by the escrow agent.

On May 22, 2019, the District also entered into a forward delivery purchase contract in the amount of \$7,535,000 of 2020 General Obligation Refunding Bonds. The bonds will be sold on or about May 5, 2020. The bonds will be sold with an interest rate of 5.0% and will mature beginning August 1, 2020 through August 1, 2031. The bonds will be sold to refund \$8,260,000 of the 2010 General Obligation Refunding Bonds.

**NOTES TO THE FINANCIAL STATEMENTS  
For the Fiscal Year Ended June 30, 2019**

**NOTE 10: GENERAL OBLIGATION BONDS**

The difference between the reacquisition price and the net carrying amount on refunded debt is deferred and amortized as a component of interest expense over the life of the new debt. Payments to the refunding escrow agents exceeded the existing carrying value of the refunded debt by \$1,155,418. This amount is amortized using the straight-line method. Amortization of \$54,043 was recognized during the fiscal year.

The outstanding general obligation bonded debt of the District at June 30, 2019 is:

General Obligation Bonds	Date of Issue	Date of Final Maturity	Interest Rate %	Amount of Original Issue	Outstanding June 30, 2019
2010 Refunding	11/4/2010	8/1/2031	2.0-5.0	\$ 14,510,000	\$ 9,665,000
2012 Refunding	4/11/2012	8/1/2034	3.0-5.0	13,760,000	11,480,000
2014 Refunding	7/29/2014	8/1/2034	2.0-5.0	17,570,000	14,570,000

**NOTE 11: CERTIFICATES OF PARTICIPATION**

The District entered into a certificate of participation agreement dated March 1, 2016. The proceeds of \$1,903,000, after payment of costs, were used to refund the outstanding Certificates of Participation Series 2002.

The Ventura County Schools Public Facilities Financing Corporation acts as a purchaser and lessor of the property. Lease payments are required to be made by the District under the lease agreement each October 1<sup>st</sup> and April 1<sup>st</sup> for use and possession of the property for the period commencing October 1, 2016 and terminating April 1, 2022. Lease payments will be funded in part from the proceeds of the certificates.

**NOTE 11: CERTIFICATES OF PARTICIPATION**

Required principal and interest payments as follows:

Year Ending June 30,	Principal	Interest
2020	\$ 382,000	\$ 13,196
2021	390,000	6,054
2022	33,000	474
Total	\$ 805,000	\$ 19,724

Certificates of Participation are long-term debt instruments which are tax exempt and therefore issued at an interest rate of 1.86%, which is below current market levels for taxable investments.

**NOTE 12: INSTALLMENT LOAN**

On September 22, 2014, the District entered into a master installment purchase agreement for the purchase of ten buses in the amount of \$1,297,194. The purchase agreement called for an initial payment totaling \$427,708 with annual loan installment payments over the next four years including interest at a rate of 1.885%.

On September 13, 2017, the District entered into an installment purchase agreement for the purchase of six additional school buses in the amount of \$933,781. Included in the financing arrangement is the refinancing of the original 10 bus purchase outstanding installment loan. The revised annual installment payments are due October 13, 2017 through October 13, 2022. Payments of \$286,819 are due the first four years of the loan and \$166,887 are due the final two years of the loan. Interest is calculated at a rate of 2.69% per annum.

Required principal and interest payments as follows:

Year Ending June 30,	Principal	Interest
2020	\$ 263,788	\$ 23,031
2021	270,890	15,929
2022	158,251	8,636
2023	162,512	4,375
Total	\$ 855,441	\$ 51,971

**NOTE 13: POST EMPLOYMENT HEALTHCARE BENEFITS**

The District administers a single-employer defined benefit post employment healthcare plan (the Retiree Health Plan) for qualified employees. In addition, some qualified certificated employees are participants in the Medicare Premium Payment Program, a cost-sharing defined benefit program administered through the California State Teachers' Retirements System (CalSTRS).

**NOTE 13: POST EMPLOYMENT HEALTHCARE BENEFITS**

As of June 30, 2019, the District's net liability for post-employment healthcare benefits consisted of the following:

<u>OPEB Plan</u>	Net OPEB Liability	Deferred Outflows of Resources	OPEB Expense
Retiree Benefits Plan	\$ 14,057,957	\$ 1,558,257	\$ 283,960

Total OPEB Plans	<u>\$ 14,900,049</u>	<u>\$ 1,558,257</u>	<u>\$ (1,564,249)</u>

**Retiree Health Plan**

**Plan Description and Eligibility**

The plan provides health, dental and vision benefits to all Certificated and Classified employees who were retired from the District as of June 30, 1993. The plan also provides for benefits to their spouses. The Retiree Health Plan does not issue a separate financial report.

**Funding Policy**

The District currently finances benefits on a pay-as-you-go basis. The District contributes 100 percent of the cost of current year premiums for eligible retired plan members and their spouses as applicable. Classified retirees who retired with fewer than 14 years of service must contribute a portion of the cost of their coverage and all classified retirees must contribute the costs of dental and vision coverage for their dependents. For the year ended June 30, 2019, the District contributed \$1,558,257 to the plan.

**Actuarial Methods and Assumptions**

***Actuarial Assumptions***

The total OPEB liability was determined by applying update procedures to the financial reporting actuarial valuation as of June 30, 2017, and rolling forward the total OPEB liability to June 30, 2018 using the assumption listed below:

Valuation Date	June 30, 2017
Measurement Date	June 30, 2018
Actuarial Cost Method	Entry Age Normal
Salary Increases	N/A
Healthcare Costs Trend Rate	8.00%, decreasing to 5.00%

**VENTURA UNIFIED SCHOOL DISTRICT**

**NOTES TO THE FINANCIAL STATEMENTS  
For the Fiscal Year Ended June 30, 2019**

**NOTE 13: POST EMPLOYMENT HEALTHCARE BENEFITS**

Mortality assumptions are based on the 2016 CalSTRS Retiree and Active Mortality tables for Certificated employee types as applicable and 2014 CalPERS Retiree and Active Mortality tables for Miscellaneous Employees, as applicable for Classified Employee types. CalSTRS and CalPERS periodically studies mortality for participating agencies and establishes mortality tables that are modified versions of commonly used tables. These table incorporates mortality projection as deemed appropriate based on CalSTRS and CalPERS analysis.

***Discount Rate***

The discount rate used to measure the OPEB liability was 2.98%. The projection of cash flows used to determine the discount rate was based on the Standard & Poor spot rate for 20 year Grade AA Municipal bonds. There are no plan assets.

**Changes in the Total OPEB Liability**

The deferred outflows of resources related to OPEB resulted from District contributions subsequent to the measurement date will be recognized as a reduction of the OPEB in the year ended June 30, 2019.

**Medicare Premium Payment Program (MPP)**

**Plan Description and Eligibility**

The MPP Program is a cost-sharing multiple-employer other postemployment benefit plan (OPEB) established pursuant to California state statute. CalSTRS administers the MPP Program through the Teachers' Health Benefits Fund (THBF). The MPP Program pays Medicare Part A premiums and Medicare Parts A and B late enrollment surcharges for eligible California full-time and part-time public school teachers from pre-kindergarten through community college who were retired or began receiving a disability allowance prior to July 1, 2012 and were not eligible for premium free Medicare Part A.

The MPP Program is closed to new entrants as members who retire after July 1, 2012, are not eligible for coverage under the MPP Program. For the years ending June 30, 2018 and 2017, 5,984 and 6,271 retirees participated in the MPP Program, respectively. The number of retired members who will participate in the program in the future is unknown because eligibility cannot be pre-determined.

**Funding Policy**

The MPP Program is funded on a pay-as-you go basis from a portion of monthly employer contributions. In accordance with California Education Code, contributions that would otherwise be credited to the CalSTRS defined benefit pension program (STRP) each month are instead

**VENTURA UNIFIED SCHOOL DISTRICT**

**NOTES TO THE FINANCIAL STATEMENTS  
For the Fiscal Year Ended June 30, 2019**

**NOTE 13: POST EMPLOYMENT HEALTHCARE BENEFITS**

credited to the MPP Program to fund monthly program and administrative costs. These contributions are generally being made at the same time and in the same amount as benefit payments and expenses coming due. Any funds remaining within the MPP Program as of June 30, 2018 were to manage differences between estimated and actual amounts to be paid and were invested in the Surplus Money Investment Fund, which is a pooled investment program administered by the State Treasurer.

Total redirections to the MPP Program are monitored to ensure that total incurred costs do not exceed the amount initially identified as the cost of the program. Total aggregate employer contributions of all participating employers to the MPP Program for fiscal year 2017-18 were \$28.2 million.

Because amounts credited to the MPP Program are deducted from the employer's regular STRP contributions, there are no contribution rates specific to the MPP Plan. Employer contributions to the STRP are calculated by CalSTRS based on creditable compensation for active members reported by employers. Employer contributions are accrued when required by statute, and the employer has made a formal commitment to provide the contributions. Cash remittances of contributions due are received from employers prior to their reports of creditable earnings by member. As a result, CalSTRS accrues employer contributions due monthly using current contribution rates and estimates based on historical creditable compensation. CalSTRS recognizes MPP Program expenses when due and payable.

**Net OPEB Liability**

As of June 30, 2019, the District reported a net OPEB liability for its proportionate share of the MPP total OPEB liability, fiduciary net position and net OPEB liability as follows:

	Balance
Proportionate Share of OPEB Liability	June 30, 2019
Total OPEB liability	\$ 838,703
Plan fiduciary net position	(3,389)
District's net OPEB liability	\$ 842,092

As the MPP Program is funded on a pay-as-you-go basis from redirected contributions from the STRP, the District has elected to calculate their proportionate share based on Schedule C of the audited proportionate share schedules of the MPP Program. This schedule presents the projection of the District's long-term share of contributions to the STRP relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2018, the District's proportion was 0.2200% which was a decrease from 0.6400% in the prior year.

**VENTURA UNIFIED SCHOOL DISTRICT**

**NOTES TO THE FINANCIAL STATEMENTS  
For the Fiscal Year Ended June 30, 2019**

**NOTE 13: POST EMPLOYMENT HEALTHCARE BENEFITS**

**Actuarial Methods and Assumptions**

The June 30, 2018 total OPEB liability for the MPP Program was determined by applying update procedures to the financial reporting actuarial valuation as of June 30, 2017, and rolling forward the total OPEB liability to June 30, 2018 using the assumptions listed in the following table:

---

Valuation Date	June 30, 2017
Measurement Date	June 30, 2018
Actuarial Cost Method	Entry age normal
Experience Study	July 1, 2010 through June 30, 2015
Investment Rate of Return	3.87%
Medicare Part A Premium Costs Trend Rate	3.70%
Medicare Part B Premium Costs Trend Rate	4.10%

In addition, assumptions were made about future participation (enrollment) into the MPP Program because CalSTRS is unable to determine which members not currently participating meet all eligibility criteria for enrollment in the future. Assumed enrollment rates were derived based on past experience and are stratified by age with the probability of enrollment diminishing as the members' age increases. This estimated enrollment rate was then applied to the population of members who may meet criteria necessary for eligibility and are not currently enrolled in the MPP Program. Based on this, the estimated number of future enrollments used in the financial reporting valuation was 459 or an average of 0.27 percent of the potentially eligible population (171,593).

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among our members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2016) table, issued by the Society of Actuaries.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (for example, Medicare premiums) and assumptions about the probability of occurrence of events far into the future (for example, mortality, disabilities and retirees eligible for the program). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of benefit costs. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

**VENTURA UNIFIED SCHOOL DISTRICT**

**NOTES TO THE FINANCIAL STATEMENTS  
For the Fiscal Year Ended June 30, 2019**

**NOTE 13: POST EMPLOYMENT HEALTHCARE BENEFITS**

Actuarial calculations reflect a long-term perspective and take into account the premiums and surcharges paid after termination of employment until the death of the employee. In many cases, actuarial calculations reflect several decades of payments after termination of employment.

**Discount Rate**

The discount rate used to measure the total OPEB liability as of June 30, 2018 and 2017 was 3.87 percent and 3.58 percent, respectively. The MPP Program is funded on a pay-as-you-go basis, and under the pay-as-you-go method, the OPEB plan’s fiduciary net position was not projected to be sufficient to make projected future benefit payments. Therefore, a discount rate of 3.87 percent and 3.58 percent, which is the Bond Buyer 20-Bond GO Index from Bondbuyer.com as of June 30, 2018 and 2017, respectively, was applied to all periods of projected benefit payments to measure the total OPEB liability.

The following table presents the net OPEB liability of employers as of June 30, 2018, using the current discount rate as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1 percent lower or 1 percent higher than the current rate:

Discount rate	Net OPEB Liability
1% decrease (2.87%)	\$ 931,396
Current discount rate (3.87%)	842,092
1% increase (4.87%)	761,457

**Medicare Costs Trend Rate**

The June 30, 2017, valuation uses the 2018 Medicare Part A and Part B premiums as the basis for future premium calculations. Future premiums are assumed to increase with a medical trend rate that varies by year. The Part A trend is approximately equivalent to assuming a fixed 3.7 percent increase each year. The Part B trend is approximately equivalent to assuming a fixed 4.1 percent increase each year.

The following table presents as of June 30, 2018, the net OPEB liability of employers using the current Medicare costs trend rates, as well as what the net OPEB liability would be if it were calculated using Medicare costs trend rates that are 1 percent lower and 1 percent higher than the current rate:

Healthcare trend rate	Net OPEB Liability
1% decrease (2.7% Part A, 3.1% Part B)	\$ 767,903
Current healthcare trend rate (3.7% Part A, 4.1% Part B)	842,092
1% increase (4.7% Part A, 5.1% Part B)	921,881

**Amortization of Deferred Outflows and Deferred Inflows of Resources**

Deferred outflows of resources are the consumption of net position by CalSTRS that is applicable to future reporting periods. As the MPP Program is a retiree only OPEB plan with no average remaining service life, other than differences between projected and actual investment earnings, deferred inflows and outflows of resources are recognized in OPEB expense in the current period. The net deferred inflows and outflows relating to differences between projected and actual earnings on plan investments are netted and amortized over a closed five-year period. As of June 30, 2018, the deferred outflows of resources and deferred inflows of resources related to the MPP Program are not material and have not been recognized in these financial statements.

**MPP Program Net OPEB Liability**

Detailed information about the MPP Program net OPEB liability is available in a separate financial report available on the CalSTRS website. Copies of the CalSTRS annual financial report may also be obtained from CalSTRS, 7667 Folsom Boulevard, Sacramento, CA 95826.

**NOTE 14: EMPLOYEE RETIREMENT PLANS**

**Multi-employer Defined Benefit Plans**

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Academic employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS).

As of June 30, 2019, the District's net pension liabilities, deferred outflows of resources, deferred inflows of resources and pension expense for each of the retirement plans are as follows:

Pension Plan	Net Pension Liability	Deferred Outflows of Resources	Deferred Inflows of Resources	Pension Expense
CalSTRS (STRP)	\$ 128,669,800	\$ 39,650,667	\$ 14,711,175	\$ 15,682,198

**California State Teachers' Retirement System (CalSTRS)**

**Plan Description**

The District contributes to the State Teachers' Retirement Plan (STRP) administered by the California State Teachers' Retirement System (CalSTRS). STRP is a cost-sharing multiple-employer public employee retirement system defined benefit pension plan. Benefit provisions are established by state statutes, as legislatively amended, within the State Teachers' Retirement Law.

**Benefits Provided**

The STRP provides retirement, disability and survivor benefits to beneficiaries. Benefits are based on members' final compensation, age and years of service credit. Members hired on or before December 31, 2012, with five years of credited service are eligible for the normal retirement benefit at age 60. Members hired on or after January 1, 2013, with five years of credited service are eligible for the normal retirement benefit at age 62. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. The STRP is comprised of four programs: Defined Benefit Program, Defined Benefit Supplement Program, Cash Balance Benefit Program and Replacement Benefits Program. The STRP holds assets for the exclusive purpose of providing benefits to members and beneficiaries of these programs. CalSTRS also uses plan assets to defray reasonable expenses of administering the STRP. Although CalSTRS is the administrator of the STRP, the state is the sponsor of the STRP and obligor of the trust. In addition, the state is both an employer and nonemployer contributing entity to the STRP.

The District contributes to the STRP Defined Benefit Program and STRP Defined Benefit Supplement Program, thus disclosures are not included for the other plans.

The STRP provisions and benefits in effect at June 30, 2019, are summarized as follows:

<u>Provisions and Benefits</u>	<u>STRP Defined Benefit Program and Supplement Program</u>

**Contributions**

Required member, District and State of California contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. The contributions rates are expressed as a level percentage of payroll using the entry age normal actuarial method. The contribution rates for each plan for the year ended June 30, 2019 are presented above and the total District contributions were \$12,395,923.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2019, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for state pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the District were as follows:

	Balance June 30, 2019
Proportionate Share of Net Pension Liability	
District proportionate share of net pension liability	\$ 128,669,800
State's proportionate share of the net pension liability associated with the District	73,669,839
Total	\$ 202,339,639

The net pension liability was measured as of June 30, 2018. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the state, actuarially determined. At June 30, 2018, the District's proportion was 0.1400% which was a decrease from 0.1420% in the prior year.

For the year ended June 30, 2019, the District recognized pension expense of \$15,682,198. In addition, the District recognized revenue and corresponding expense of \$8,654,545 for support provided by the state. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Total	<u>\$ 39,650,667</u>	<u>\$ 14,711,175</u>

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. The net difference between projected and actual earnings on plan investments is amortized over a five year period on a straight-line basis. One-fifth is recognized in pension expense during the measurement period and remaining amount is deferred and will be amortized over the remaining four-year period. The remaining net differences between projected and actual earnings on plan investments shown above represents the unamortized balance relating to the current measurement period and the prior measurement periods.

All other deferred outflows of resources and deferred inflows of resources are amortized over the expected average remaining service life (EARSL) of the plan participants. The EARSL for the STRP for the June 30, 2018 measurement date is seven years. The first year of amortization is recognized in pension expense for the year the gain or loss occurs. The remaining amounts are deferred and will be amortized over the remaining periods not to exceed six years.

The remaining amount will be recognized to pension expense as follows:

**Actuarial Methods and Assumptions**

Total pension liability for STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2017, and rolling forward the total pension liability to June 30, 2018. The financial reporting actuarial valuation as of June 30, 2017 used the following methods and assumptions, applied to all prior periods included in the measurement:

Actuarial Methods and Assumptions

Valuation Date	June 30, 2017
Measurement Date	June 30, 2018
Experience Study	July 1, 2010 through June 30, 2015
Actuarial Cost Method	Entry Age Normal
Discount Rate	7.10%
Investment Rate of Return	7.10%
Consumer Price Inflation	2.75%
Wage Growth	3.50%

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2016) table, issued by the Society of Actuaries.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant and adopted by the CalSTRS Board in February 2017. The assumed asset allocation is based on board policy for target asset allocation in effect on February 2017, the date the current experience study was approved by the board. Best estimates of 20-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

**VENTURA UNIFIED SCHOOL DISTRICT**

**NOTES TO THE FINANCIAL STATEMENTS  
For the Fiscal Year Ended June 30, 2019**

**NOTE 14: EMPLOYEE RETIREMENT PLANS**

Asset Class	Assumed Asset Allocation	Long-term Expected Real Rate of Return
Global equity	47%	6.30%
Private equity	13%	9.30%
Real estate	13%	5.20%
Fixed income	12%	0.30%
Risk mitigating strategies	9%	2.90%
Inflation sensitive	4%	3.80%
Cash/liquidity	2%	-1.00%

**Discount Rate**

The discount rate used to measure the total pension liability was 7.10%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10%) and assuming that contributions, benefit payments, and administrative expense occurred midyear. Based on these assumptions, the STRP’s fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the District’s proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

Discount Rate	Net Pension Liability
1% decrease (6.10%)	\$ 188,486,200
Current discount rate (7.10%)	128,669,800

**NOTE 14: EMPLOYEE RETIREMENT PLANS**

**California Public Employees Retirement System (CalPERS)**

**Plan Description**

Qualified employees are eligible to participate in the Schools Pool Plan under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the Public Employees' Retirement Law.

**Benefits Provided**

CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of service credit, a benefit factor, and the member's final compensation. Members hired on or before December 31, 2012, with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. Members hired on or after January 1, 2013, with five years of total service are eligible to retire at age 52 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 5 years of service. The Basic Death Benefit is paid to any member's beneficiary if the member dies while actively employed. An employee's eligible survivor may receive the 1957 Survivor Benefit if the member dies while actively employed, is at least age 50 (or 52 for members hired on or after January 1, 2013), and has at least 5 years of credited service. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The CalPERS provisions and benefits in effect at June 30, 2019, are summarized as follows:

Provisions and Benefits	Schools Pool Plan (CalPERS)	
	On or Before December 31, 2012	On or after January 1, 2013

**Contributions**

Section 20814(c) of the California Public Employees’ Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Total plan contributions are determined through the CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The contributions rates are expressed as percentage of annual payroll. The contribution rates for each plan for the year ended June 30, 2019 are as presented above and the total District contributions were \$5,491,903.

**Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions**

As of June 30, 2019, the District reported net pension liabilities for its proportionate share of the CalPERS net pension liability totaling \$60,152,062. The net pension liability was measured as of June 30, 2018. The District’s proportion of the net pension liability was based on a projection of the District’s long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2018, the District’s proportion was 0.2256% which was a decrease from 0.2293% in the prior year..

For the year ended June 30, 2019, the District recognized pension expense of \$11,013,921. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	\$ 5,491,903	\$ -
Differences between expected and actual experience	3,943,349	-
Changes of assumptions	6,005,918	-
Changes in proportion	-	1,061,483
Net differences between projected and actual earnings on pension plan investments	493,382	-
Total	\$ 15,934,552	\$ 1,061,483

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. The net difference between projected and actual earnings on plan investments is amortized over a five year period on a straight-line basis. One-fifth is

recognized in pension expense during the measurement period and remaining amount is deferred and will be amortized over the remaining four-year period. The remaining net differences between projected and actual earnings on plan investments shown above represents the unamortized balance relating to the current measurement period and the prior measurement period.

All other deferred outflows of resources and deferred inflows of resources are amortized over the expected average remaining service life (EARSL) of the plan participants. The EARSL for the CalPERS Schools Pool Plan for the June 30, 2018 measurement date is 4.0 years. The first year of amortization is recognized in pension expense for the year the gain or loss occurs. The remaining amounts are deferred and will be amortized over the remaining periods not to exceed 3.0 years.

The remaining amount will be recognized in pension expense as follows:

Year Ending June 30,	Amortization
2020	\$ 5,682,038
2021	4,306,177
2022	(252,005)
2023	(355,044)
Total	\$ 9,381,166

**Actuarial Methods and Assumptions**

Total pension liability for the Schools Pool Plan was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2017, and rolling forward the total pension liability to June 30, 2018. The financial reporting actuarial valuation as of June 30, 2017 used the following methods and assumptions, applied to all prior periods included in the measurement:

Actuarial Methods and Assumptions	
Valuation Date	June 30, 2017
Measurement Date	June 30, 2018
Experience Study	July 1, 1997 through June 30, 2015

**VENTURA UNIFIED SCHOOL DISTRICT**

**NOTES TO THE FINANCIAL STATEMENTS  
For the Fiscal Year Ended June 30, 2019**

**NOTE 14: EMPLOYEE RETIREMENT PLANS**

Mortality assumptions are based on mortality rates resulting from the most recent CalPERS experience study adopted by the CalPERS Board. For purposes of the post-retirement mortality rates, those revised rates include 15 years of mortality improvements using 90 percent of scale MP 2016 published by the Society of Actuaries.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-term Expected Real Rate of Return
Global equity	50%	5.98%
Fixed income	28%	2.62%
Private equity	8%	7.23%
Real assets	13%	4.93%
Liquidity	1%	-0.92%

**Discount Rate**

The discount rate used to measure the total pension liability was 7.15% and reflects the long-term expected rate of return for the Schools Pool Plan net of investment expenses and without reduction for administrative expenses. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Based on these assumptions, the Schools Pool Plan fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

**Changes of Assumptions**

During the fiscal year of the measurement date of June 30, 2018, the CalPERS Board adopted new mortality assumptions for the plan. The new mortality table was developed from the December 2017 experience study and includes 15 years of projected ongoing mortality improvement using 90 percent of scale MP 2016 published by the Society of Actuaries. The inflation assumption is reduced from 2.75% to 2.50%. The assumptions for individual salary increases and overall payroll growth are reduced from 3.00% to 2.75%. Deferred outflows of resources for changes of assumptions represents the unamortized portion of this assumption change.

**Plan Fiduciary Net Position**

Detailed information about CalPERS Schools Pool Plan fiduciary net position is available in a separate comprehensive annual financial report. Copies of the CalPERS annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, CA 95814.

**Single-Employer Deferred Compensation Plan**

As of June 30, 2019, the District’s net pension liabilities, deferred outflows of resources, deferred inflows of resources and pension expense for each of the defined plan is as follows:

Pension Plan	Net Pension Liability	Deferred Outflows of Resources	Deferred Inflows of Resources	Pension Expense
Deferred compensation plan	\$ 1,463,134	\$ 265,284	\$ 57,168	\$ 33,395

**Plan Description**

The District’s Deferred Compensation Plan, a single-employer defined benefit pension plan administered by the District, is provided in lieu of postretirement healthcare benefits to plan members and beneficiaries. Benefit eligibility is limited to employees hired prior to April 28, 1993 who retire from the District after June 30, 1993 under either the PERS or STRS pension plan.

**VENTURA UNIFIED SCHOOL DISTRICT**

**NOTES TO THE FINANCIAL STATEMENTS

**NOTE 14: EMPLOYEE RETIREMENT PLANS**

The benefit provides for \$1,500 per year of service, and is frozen based on completed years of service at June 30, 1993 plus one, limited to a maximum of 30 years of service. Benefits are paid in five equal annual installments. Benefit provisions were established by the governing board and may not be amended. The plan does not issue a separate financial report.

Participants in the plan consisted of the following at June 30, 2019:

Plan Membership	Number of Participants
Retired members or beneficiaries currently receiving benefits	71
Active members	130
Total	201

**Funding Policy**

The District currently finances benefits on a pay-as-you-go basis. The District paid \$258,621 in healthcare costs for eligible retirees and beneficiaries during the year ended June 30, 2019. The District contributes 100 percent of the cost of pension benefits as established by the plan provisions.

**Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions**

As of June 30, 2019, the District reported total pension liabilities for its deferred compensation plan totaling \$1,463,134. The total pension liability was measured as of June 30, 2018.

The changes in the total pension liability were as follows:

Total Pension Liability	June 30, 2019
Interest	\$ 49,862
Differences between expected and actual experience	(67,397)
Changes of assumptions	7,457

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. All other deferred outflows of resources and deferred inflows of resources are amortized over the expected average remaining service life (EARSL) of the plan participants. The EARSL for the deferred compensation plan for the June 30, 2018 measurement date is 3.066 years. The first year of amortization is recognized in pension expense for the year the gain or loss occurs. The remaining amounts are deferred and will be amortized over the remaining period

The remaining amount will be recognized in pension expense as follows:

2020	(20,223)
2021	(1,287)
Total	\$ (50,505)

**Actuarial Methods and Assumptions**

Total pension liability for the deferred compensation plan was based on an actuarial valuation as of June 30, 2018. The valuation used the following methods and assumptions, applied to all prior periods included in the measurement:

Actuarial Methods and Assumptions	
Valuation Date	June 30, 2018
Measurement Date	June 30, 2018
Actuarial Cost Method	Entry Age Normal
Discount Rate	2.98%

Projected benefits are based on the assumption that payments are certain and will be made to the retiree's designated beneficiary if the retiree dies prior to receiving all of the payments. Retiree rates are based on CalSTRS 2016 retirement rates for certificated employees and 2017 CalPERS School Employees retirement rates for classified employees.

**NOTE 15: JOINT POWERS AGREEMENTS**

The District participates in two joint powers agreement (JPA) entities: the Ventura County Schools Self-Funding Authority (the Authority) and the Gold Coast Joint Benefits Trust (the Trust). The Authority provides workers' compensation, property and liability insurance, boiler and machinery and fidelity bond coverage among other types of insurance. The member districts are subject to various deductible amounts in addition to payment of premiums assessed by the Authority. The Authority pools responsibility for claims up to certain limits and provides high level umbrella type coverage above its retention limits. The Trust arranges for health and welfare benefits for employees and retirees of participating school districts and their eligible dependents. Member districts pay a monthly premium per eligible participant. Claims have not exceeded coverage in any of the past three fiscal years.

Each JPA is independently accountable for its fiscal matters and is governed by a board consisting of representatives from each member District. Budgets are not subject to any approval other than that of the respective governing boards. Member districts share surpluses and deficits proportionately to their participation in the JPAs. Separate financial statements for each JPA may be obtained from the respective entity.

The relationships between the District and the JPAs are such that none of the JPAs is a component unit of the District for financial reporting purposes.

**NOTE 16: COMMITMENTS AND CONTINGENCIES**

**Litigation**

The District is involved in claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the District's financial statements.

**State and Federal Allowances, Awards, and Grants**

The District has received state and federal funds for specific purposes, including reimbursement of mandated costs, which are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursement will not be material.

**Construction Commitments**

As of June 30, 2019, the District was committed under various capital expenditure purchase agreements for construction projects totaling approximately \$3 million.

**NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION  
For the Fiscal Year Ended June 30, 2019**

**NOTE 1: PURPOSE OF SCHEDULES**

**Schedules of Budgetary Comparison for the General Fund and Cafeteria Fund**

A budgetary comparison is presented for the general fund and for any major special revenue fund that has a legally adopted annual budget. This schedule presents the budget as originally adopted, the revised budget as of the fiscal year end, actual amounts at fiscal year-end, and any adjustments needed to present the amounts in accordance with generally accepted accounting principles (GAAP).

**Schedule of Changes in the Total OPEB Liability and Related Ratios – Retiree Benefits Plan**

The schedule is intended to show trends about the changes in the District’s actuarially determined liability for postemployment benefits other than pension associated with the District’s retiree benefits plan.

Benefit changes – None.

Changes of Assumptions – The discount rate changed from 3.10% to 2.98%, the healthcare trend rate increased and revised mortality tables were utilized.

**Schedule of the District’s Proportionate Share of the Net OPEB Liability – Medicare Premium Payment Plan**

The schedule presents information on the District’s proportionate share of the net pension liability for postemployment benefits other than pension associated with the Medicare Premium Payment plan.

**Schedule of Changes in the Total Pension Liability and Total Pension Liability as a Percentage of Covered Payroll – Deferred Compensation Plan**

The schedule presents information on the changes in the District’s total pension liability for the Deferred Compensation plan and the total pension liability as a percentage of covered payroll. In the future, as data becomes available, 10 years of information will be presented.

**Schedules of District’s Proportionate Share of the Net Pension Liability – CalSTRS (STRP) and CalPERS (Schools Pool Plan)**

The schedule presents information on the District’s proportionate share of the net pension liability, the plans’ fiduciary net position and, when applicable, the state’s proportionate share of the net pension liability associated with the District. In the future, as data becomes available, 10 years of information will be presented.

**VENTURA UNIFIED SCHOOL DISTRICT**

**NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION  
For the Fiscal Year Ended June 30, 2019**

**NOTE 1: PURPOSE OF SCHEDULES**

**Schedules of District Contributions – CalSTRS (STRP) and CalPERS (Schools Pool Plan)**

The schedule presents information on the District’s required contribution, the amounts actually contributed and any excess or deficiency related to the required contribution. In the future, as data becomes available, 10 years of information will be presented.

**NOTE 2: EXCESS OF EXPENDITURES OVER APPROPRIATIONS**

Excesses of expenditures over appropriations, by major object accounts, occurred in the funds as follows:

Major Object	Amount
General Fund:	
Certificated salaries	\$ 190,833
Classified salaries	784,076
Employee benefits *	7,897,644
Services and other operating expenditures	316,438
Tuition	377,655
Cafeteria Fund:	
Employee benefits *	138,063
Books and supplies	363,932
Direct support - indirect cost	68,394

\* The excess of expenditures over appropriations for employee benefits occurred primarily due to on-behalf payments made by the State of California to the State Teachers' Retirement System and the Public Employees' Retirement System that were not budgeted.

## NOTES TO THE SUPPLEMENTARY INFORMATION For the Fiscal Year Ended June 30, 2019

### **NOTE 1: PURPOSE OF SCHEDULES**

#### **Schedule of Average Daily Attendance (ADA)**

Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

#### **Schedule of Instructional Time**

The District has met or exceeded its target funding. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of Education Code Sections 46207 through 46208.

#### **Schedule of Expenditures of Federal Awards**

##### **Basis of Presentation**

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the District under programs of the federal governmental for the year ended June 30, 2019. The information in this Schedule is presented in accordance with the requirements of the Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of operations of the District, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the District.

##### **Summary of Significant Accounting Policies**

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The District did not use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

**NOTES TO THE SUPPLEMENTARY INFORMATION  
For the Fiscal Year Ended June 30, 2019**

**NOTE 1: PURPOSE OF SCHEDULES**

**Schedule of Financial Trends and Analysis**

The *2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* requires that this schedule be prepared showing financial trends of the general fund over the past three fiscal years as well as the current year budget. This report is intended to identify if the District faces potential fiscal problems and if they have met the recommended available reserve percentages.

**Schedule of Charter Schools**

The *2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* requires that this schedule list all charter schools chartered by the District and inform the users whether or not the charter school information is included in the District's financial statements.

**Reconciliation of Annual Financial and Budget Report with Audited Financial Statements**

This schedule provides the information necessary to reconcile the fund balances of all funds as reported on the annual Financial and Budget Report form to the audited financial statements.

**NOTES TO THE OPTIONAL SUPPLEMENTARY INFORMATION  
For the Fiscal Year Ended June 30, 2019**

**NOTE 1: PURPOSE OF SCHEDULES**

**Combining and Individual Fund Financial Statements/Schedule**

The combining fund balance sheets and statements of revenues, expenditures and changes in fund balance for the non-major governmental funds and the combining statements of fiduciary net position for the fiduciary funds have been presented to provide additional information to the users of these financial statements. These statements/schedule have been prepared using the basis of accounting described in the notes to the financial statements.

**OTHER INDEPENDENT AUDITORS' REPORTS**

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL  
OVER FINANCIAL REPORTING AND ON COMPLIANCE  
AND OTHER MATTERS BASED ON AN AUDIT  
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH GOVERNMENT AUDITING STANDARDS**

Board of Education  
Ventura Unified School District  
Ventura, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Ventura Unified School District (the District), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 12, 2019.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency or a combination of deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

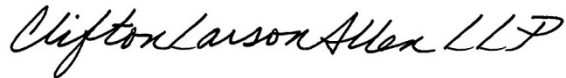

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL  
OVER FINANCIAL REPORTING AND ON COMPLIANCE  
AND OTHER MATTERS BASED ON AN AUDIT  
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS***

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE  
FOR EACH MAJOR FEDERAL PROGRAM; AND REPORT  
ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED  
BY THE UNIFORM GUIDANCE**

Board of Education  
Ventura Unified School District  
Ventura, California

**Report on Compliance for Each Major Federal Program**

We have audited Ventura Unified School District's (the District) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2019. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

**Management's Responsibility**

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

**Auditors' Responsibility**

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE  
FOR EACH MAJOR FEDERAL PROGRAM; AND REPORT ON  
INTERNAL CONTROL OVER COMPLIANCE REQUIRED  
BY THE UNIFORM GUIDANCE**

*Opinion on Each Major Federal Program*

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

**Report on Internal Control Over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance, for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## INDEPENDENT AUDITORS' REPORT ON STATE COMPLIANCE

Board of Education  
Ventura Unified School District  
Ventura, California

We have audited the Ventura Unified School District's (the District) compliance with the types of compliance requirements described in the *2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel for the year ended June 30, 2019. The District's state compliance requirements are identified in the table provided.

### **Management's Responsibility**

Management is responsible for compliance with the state laws and regulations as identified below.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on the District's compliance based on our audit of the types of compliance requirements referred to below. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the specific areas listed below has occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion on state compliance. However, our audit does not provide a legal determination of the District's compliance.
