Name	Adjusted Cumulative Enrollment	Stability Count	Stability Rate	Non-Stability Count	Non-Stability Rate
Ventura Unified	9,705	8,692	89.6%	1,013	10.4%
Ventura	75,138	68,426	91.1%	6,712	8.9%
Statewide	3,560,661	3,187,612	89.5%	373,049	10.5%

Note: Data may be suppressed (*) to protect student privacy (Data Suppression). Data are unduplicated at each reporting level (school/district/county/state). As a result, data at one level (e.g., school) are not summative to a higher level (e.g., district). Also, data displayed in the Student Group report view (located in the Report Options and Filters under the Data Type Options) are not mutually exclusive and therefore not summative to the report total. For more information about the Stability Rate Report Data, please visit the Information about the Stability Rate Report page.
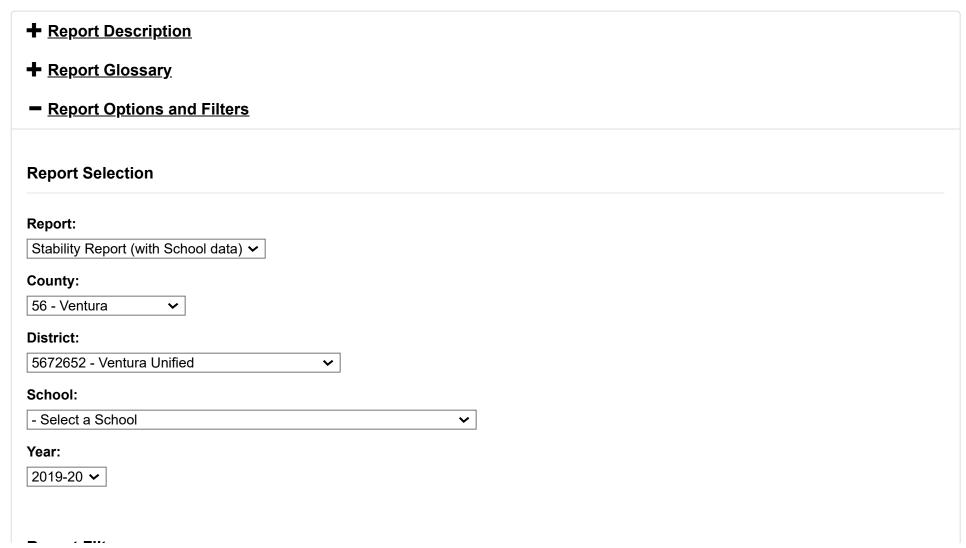

* Charter school data are removed by default from all district-level DataQuest stability rate reports, including the associated state and county Report Totals. To include charter school data in district-level reports, select the "Reset Filters" button on district-level reports to show data for "All Schools" OR select the desired School Type filter from within the expandable Report Filters menu on the desired DataQuest report.

** Results produced using the Alternative School report filter are based on the Alternative School Accountability Status (ASAS) during associated academic year, which is based on the Dashboard Alternative School Status (DASS). The Alternative School report filter is strictly intended to facilitate comparisons for traditional charter and non-charter schools by allowing for the removal of alternative schools, which generally serve "high-risk" student populations. For more information regarding the current DASS school accountability please click here.

Report Totals

Name	Adjusted Cumulative Enrollment	Stability Count	Stability Rate	Non-Stability Count	Non-Stability Rate
Ventura Unified	16,139	14,838	91.9%	1,301	8.1%
Ventura	128,786	120,131	93.3%	8,655	6.7%
Statewide	5,447,535	5,030,075	92.3%	417,460	7.7%

Note: Data may be suppressed (*) to protect student privacy (Data Suppression). Data are unduplicated at each reporting level (school/district/county/state). As a result, data at one level (e.g., school) are not summative to a higher level (e.g., district). Also, data displayed in the Student Group report view (located in the Report Options and Filters under the Data Type Options) are not mutually exclusive and therefore not summative to the report total. For more information about the Stability Rate Report Data, please visit the Information about the Stability Rate Report page.

* Charter school data are removed by default from all district-level DataQuest stability rate reports, including the associated state and county Report Totals. To include charter school data in district-level reports, select the "Reset Filters" button on district-level reports to show data for "All Schools" OR select the desired School Type filter from within the expandable Report Filters menu on the desired DataQuest report.

** Results produced using the Alternative School report filter are based on the Alternative School Accountability Status (ASAS) during associated academic year, which is based on the Dashboard Alternative School Status (DASS). The Alternative School report filter is strictly intended to facilitate comparisons for traditional charter and non-charter schools by allowing for the removal of alternative schools, which generally serve "high-risk" student populations. For more information regarding the current DASS school accountability please click here.
